AGN EUROPE publishes the 2014 Tax Survey and Tax Brochures

AGN Europe is delighted to announce that the 2014 tax surveys and brochures have been released by the European tax technical committee of AGN. Since their introduction in the late 1990's, the surveys have become a leading comparison of real tax rates across Europe

The surveys bring together details of data about tax rates within European countries and the online tool allow users to easily select the countries they wish to compare. In total, 150 surveys were completed this year covering:

- Corporate Tax
- Parent Companies
- Gift & Inheritance Tax
- Salaries & Social Security
- Self Employed Tax
- VAT

The set of six printed brochures show sample information from each survey.. Each brochure contains a table showing the main aspects of the tax, an additional graph compiling the most important points of comparison and an article including an overview of tax rates within all the countries analysed.

Nancy Cruickshanks, chair of the AGN EUROPEAN Taxation Task Force Committee and member of the European Regional Board says:

“the 2014 surveys compiled thanks to the AGN European tax experts are a unique product where with one click you can access an comparison between up to 25 countries at a time – the TTF is proud to offer such a valuable resource which can be accessed by clients of our member firms and be made available to third parties.”

All data has been prepared by Tax experts within AGN Europe firms and has been coordinated by the AGN Europe Taxation Task Force Committee consisting of 10 experts.

Online Tax Surveys and copy of the Brochures are available on the AGN Europe Website www.agn-europe.org under Tax Surveys.

An [order form](#) for tax brochure is available for completion by AGN Firm members and interested external parties.
